How to find my lost iPad?

Open icloud.com

	Sign in to iCloud Apple ID Password • Keep me signed in • Create yours now.						The Apple ID is their full email address – mds12345@mountdesales.net The password is there Moodle password (must have a number in this password – if no number, send them to the ARC) The following screen should appear			
iCloud			Thursday) Eunice ~ (
	Mail	Contacts	Calendar	Photos	iCloud Drive	Notes	Reminders			
	Pages	Numbers	Keynote	Find Friends	Find iPhone	Settings				

Click on "Find iPhone" EVEN THOUGH you are trying to find an iPad.

You may see a compass type of icon searching. You may receive a message that "all devices are offline" or "unable to locate device". You may see a map that shows the iPad in the middle of a parking lot. DO NOT be discouraged. Read on for more directions

Look at the top center of this screen to find "**All Devices**". It does NOT matter what is shown on the screen (you may not see a map). Click on the down arrow found on the right of this command.

Hopefully there will be only 1 iPad listed and THAT is the one you will click on.

Click on "Play Sound"

Click on "Lost Mode" and follow directions below.

DO NOT enter a phone number – click on the green "Next" found in upper right This is the Next screen – enter "Take this iPad to the ARC – belongs to "your name".

Enter a message like "Take this to the ARC – belongs to "your name". Click the green Done (upper right of this dialog box. Log out of iCloud. Then wait for it all to work!
